

# HSEQ Information

16 March 2015 – No. 15/03

## Speed limits within the Port's jurisdiction

In recent times the Port has undergone significant change both with building and road infrastructure.

The Port roads play host to a large number of vehicles, including a variety of different size road vehicles and also types of plant. As such it is essential that operators using these roads are familiar with the Port's speed limits and pedestrian crosswalks to ensure the safety of staff within the security zone and of the general public outside the secure zone.

To assist with compliance we ask you to report speeding or other driving offences to the HSEQ Department so that action can be taken to reduce the likelihood of an incident occurring.

Please call us or use the email [HSEQStaff@midwestports.com.au](mailto:HSEQStaff@midwestports.com.au).

The Mid West Ports Authority HSEQ department monitors road usage via road traffic units to identify potentially hazardous areas for safety issues as well as future road maintenance programs.

Please take a moment to familiarise yourselves with the attached map showing the locations of pedestrian crosswalks and also the speed limit zones.
