

**Mandatory DUKC (Dynamic Underkeel Clearance) Data Form  
for Vessels with Drafts Greater of Equal to 10.00m**

Number: 03 / 2024

Date Issued: 01 March 2024

Date of effect:	01 March 2024
Details:	Mandatory DUKC (Dynamic Underkeel Clearance) Data Form for vessels with draft = / > 10.0m
Former Notice:	NA
Charts & Publications:	AUS 81 & AUS 751
Attachments:	DUKC Data Form

Mariners are advised that effective 01 March 2024, all vessels visiting the Port of Geraldton are required to complete and return the attached DUKC Data Form, when the vessels draft meets or exceeds 10.00m, for either INBOUND or OUTBOUND transits.

The DUKC Data Form must be submitted at least four (4) days prior to arrival.

Multiple DUKC Data Forms may be submitted to supply a range of sailing drafts if deemed necessary.

Should departure drafts be updated or changed from the original declaration, a new DUKC Data Form must be submitted when departure drafts are known and no later than 2 hours prior to vessels scheduled departure. Delays in submitting this form will result in delays or cancellation of the vessels movement.

Completed Forms are to be emailed to [shipping@midwestports.com.au](mailto:shipping@midwestports.com.au)

\*Please note that the requested Departure Draft is not guaranteed to be achieved.

Any questions or feedback regarding this Local Marine Notice should be addressed to the Mid West Port Authority Marine Team.
