ADVISE TO MARINERS		

Mariners are advised that a Midwest Ports Authority Waverider Buoy has been deployed in the following position - Latitude 28 43.860 and Longitude 114 33.213 (in close proximity to the South Tomi Wreck Buoy).

The buoy is constructed of aluminum, painted orange and has a small whip antenna attached. At night, the buoy is marked with a yellow light with a light characteristic of 5 flashes every 20 seconds.

Please be aware that it is an offence to moor a vessel to a navigation aid.

Sally Anderson
Acting Harbour Master
