

Promulgation of Berth Planner for the Port of Geraldton

Number: 03 / 2024

Date Issued: 28 February 2024

Date of effect:	01 March 2024
Details:	Promulgation of Berth Planner for the Port of Geraldton
Former Notice:	NA
Charts & Publications:	
Attachments:	Sample of Berth Planner

To assist with longer term planning activities and to complement our move towards the implementation of a suitable Port Management System, MWPA will commence issuing a “Berth Planner” spreadsheet effective from 1st March 2024.

The “Berth Planner” will provide indicative information only and may be used to complement the official “Port Requirements” shipping schedule, which will continue to be issued and should be used for booking of all port services. It is hoped that the Berth Planner will provide more transparency on port operations and provide a single source of information on advance vessel schedules.

The Berth Planner Spreadsheet will initially be issued every Monday, Wednesday and Friday morning with a view to having it issued on a daily basis as it is further developed. In addition to indicative vessel schedules for each berth the Berth Planner will also include information relating to customer laycan dates and scheduled berth maintenance shutdowns. A separate tab will present berth usage in a Gantt format to assist with operational planning. Please note that the Gantt chart time line consist of 6 hour time blocks only and therefore may show some overlap of hours.

Information contained in the latest issued “Port Requirements”, supersedes any information contained in the “Berth Planner”

Any questions or feedback regarding this Harbour Master Instruction should be addressed to the Mid West Port Authority Marine Team.

Heathcliff Pimento

Harbour Master (Geraldton)

THE BELOW LINE-UP IS INDICATIVE AND FOR PLANNING PURPOSES ONLY.
ALWAYS REFER TO THE SHIPPING SCHEDULE FOR CONFIRMED TIMINGS.

The below Schedule is indicative, subject to change and is provided for planning purposes only. Always refer to the "MWPA Port Requirements" email and website information for confirmed schedule and timings to be used for booking of services.													26/02/2024		Boxes highlighted require key information prior to final berthing approval
